**Overcoming Imposter Syndrome with Sarah Pearson PhD (c), MMT, DipSC, RP**

Date and Time: Wednesday, November 9 12:00 p.m. - 1:00 p.m.

Address: 89 Grand Ave. S. Cambridge, ON, N1S 2L7

Imposter syndrome... it's that nagging feeling that you're not really as good at things as people think you are, or that it's only a matter of time before you're found out. If this sounds familiar, you are not alone!

Imposter syndrome is an occupational hazard in workplaces and beyond. But feeling like we don't quite belong where we are can have a damaging effect on us longer-term and can impact many areas of our lives.

In this workshop we will explore the different types of imposter syndrome, what may be causing them, and what the research shows can help us move beyond it. We'll look at how gender, race and other identities contribute to imposter syndrome, and how to make small changes in the way we relate to others and ourselves that can create more supportive, connective workplace environments and communities.

If you find yourself dealing with imposter syndrome in some area of your life, or know people who do, this workshop is for you!

The war memorials that dot the communities across the country are the sites of the most important public ceremonies of the civic calendar. They hearken back to our history, they help us remember our war dead, and they help us envision the future. But they have histories of their own.

The Zoom link will be sent to all registrants two days prior to the talk. Please be sure to check junk mail if you do not receive the link, or email us at [mcdougall@regionofwaterloo.ca](mailto:mcdougall@regionofwaterloo.ca)
